

Individual Reflection week 6

It feels exiting that we now start to see the end result of our project.

The fact that we as a group have developed and we are becoming more and more comfortable in the agile work methods has led to that we as a group have a better working environment and meeting flow better and better.

- What do I want to learn or understand better?
JavaScript, Html, CSS, Typescript, Java spring and React
- How can I help someone else, or the entire team, to learn something new?
Ask the other group member if there is anyone who needs help
- What is my contribution towards the team's use of Scrum?
Be present and active in our scrum meeting.
Writing task and user stories.
- What is my contribution towards the team's deliveries?
I have been working on session storis and learning React.
I have also helped my fellow team mates to the best of my ability.
