

Jesper Jansson Reflection week 2

What do I want to learn or understand better?

Currently I find it hard to visualize how to glue together stories that tie together in some way. The first step is to start developing and be vigilant during the process.

How can I help or someone else, or the entire team, to learn something new?

I can help the team learn more by educating myself and in that way be able to contribute with knowledge.

What is my contribution towards the team's use of Scrum?

Don't know alot and haven't done alot of Scrum.

What is my contribution towards the team's deliverables?

Currently most of my contribution is through input during meetings where I would like it to be more work aswell. I can contribute more by bringing my laptop to the meetings.
