

## Jesper Jansson

### Reflection Week 1

Everyone hasn't been able to attend our meetings so far and I want this to change by making sure that our meeting times are known well in advance where it fits everyone.

The people in the team are friendly and nice and there seems to be a good atmosphere and I want this to continue by bringing a positive attitude to our meetings and other events.

I want to understand more about what this course is about because this week I missed some lectures and workshops by making sure my own schedule doesn't collide that much in the future and that I have time to read up when I miss anything.
